Overview

Experienced **Web Developer** with 5 **years** of experience, proficient in various technologies including **PHP frameworks (CodeIgniter, Laravel, Core-Php, Wordpress)**, frontend technologies (**React.Js, Bootstrap, HTML5**), **database management (MySQL)**, and **server management (Linux, Apache)**. Skilled in troubleshooting, debugging, and resolving issues related to payment gateway integrations, ensuring security and reliability.

SKILLS

- **Programming Languages:** CodeIgniter, Laravel, WordPress, Core-Php, React.Js
- **Web Development Technologies:** CSS, HTML5, Ajax, Bootstrap, jQuery
- **Database Management and Integration:** MySQL, Payment gateway integration, API development, E-commerce solutions
- **Development Tools and Environments:** Wamp, Xampp, Lamp, CDN, Linux command line and crontab usage, AWS
- **Version Control and Project Management:** Git, Bitbucket, SVN, JIRA, Confluence
- **Server Management and Administration:** Apache, Linux (Ubuntu, CentOS), Windows, Mac Systems, SSH, FTP, WHM, cPanel, Web hosting, Domain registration, DNS, SSL encryption
- **Debugging and Issue Resolution:** Troubleshooting, Debugging
- **CLI Tools:** CMD, Npm, Curl, PowerShell, Bash, Terminal
- **IDE Tools:** Atom, Visual Studio Code, Sublime Text, Notepad++, Dreamweaver
- **Methodologies:** Agile methodology – Scrum, Sprints
- **Testing and Optimization:** Code Review, Bug tracking and reporting

EDUCATION

- B-Tech in Computer Science and Engineering
University of Kerala, India
Verified by WES

Certifications

- * Google Advanced Data Analytics Certificate (Coursera, Issued April 2025)
- * Microsoft Power BI Data Analyst Professional Certificate (Coursera, Issued April 2025)

PROFESSIONAL EXPERIENCE

Role: Senior Php Web Developer

Client: Akira Software Solutions

Duration: November 2022 – May 2025

Skills: WordPress, Laravel, CodeIgniter, C-panel, CSS, HTML5, Ajax, Bootstrap, jQuery

Responsibilities:

- Developed and prepared comprehensive technical documentation for projects involving **PHP, WordPress, React JS, CSS, jQuery, and JavaScript**.
- Develop **ETL** pipelines in Snowflake to extract, transform, and load data from various sources, ensuring data accuracy and completeness.
- Ensuring the security and integrity of databases by implementing appropriate access controls, backup and recovery strategies, and data validation routines.

- Conducting **SSAS**-based data validation and testing to ensure accurate data transformations and calculations. Performing comprehensive testing to verify that SSAS cubes produce accurate and reliable results in various scenarios.
 - Ensured the **security and extensibility of codebase** by implementing robust security measures and adhering to best practices in **PHP, WordPress, React JS, CSS, jQuery, and JavaScript development**.
 - Wrote detailed but **concise documentation**, outlining **project requirements and specifications** for **PHP, WordPress, React JS, CSS, jQuery, and JavaScript** projects.
 - Proactively **troubleshooted, fixed, and debugged** problems in **PHP, WordPress, React JS, CSS, jQuery, and JavaScript** applications, ensuring smooth operation and minimal downtime.
 - Developed and maintained **payment gateway integration solutions**, focusing on security and reliability in transactions, utilizing **PHP, WordPress, React JS, CSS, jQuery, and JavaScript**.
 - Ensured compliance with project requirements and specifications, conducting **code reviews** and providing constructive feedback to the team in **PHP, WordPress, React JS, CSS, jQuery, and JavaScript** projects.
 - Utilized exceptional writing, editing, and proof-reading skills to produce engaging and error-free content for **PHP, WordPress, React JS, CSS, jQuery, and JavaScript** projects.
 - Participated in **Daily Scrum and sprint planning meetings**
 - Crafted **SEO-friendly content for websites** and blog posts to enhance organic traffic, leveraging **PHP, WordPress, React JS, CSS, jQuery, and JavaScript** skills.
-

Role: Senior PHP Web Developer

Client: Techmaven It Solutions Pvt Ltd, India

Duration: Feb 2021 – Nov 2022

Skills- Server-side scripting, Database interaction with MySQL, Object-oriented programming, API development and integration, Content management system (CMS) development with PHP (e.g., WordPress), Security best practices in PHP development, Debugging, SVN, Apache, PHP extensions and libraries, JSON, XML, Performance optimization, Templating engines (Blade), Command-line scripting with PHP, Dependency management with Composer, PHP coding standards.

Responsibilities:

- Managed and configured **payment gateway** settings, utilizing **Laravel** and **CodeIgniter** skills.
 - Utilized different **APIs** to build frameworks, enhancing functionality and integration capabilities.
 - Monitored transaction activity and promptly resolved payment-related issues, ensuring seamless payment processing.
 - Upgraded website frameworks, addressing compatibility issues and deprecated code using **Laravel** and **CodeIgniter** expertise.
 - Examined existing codebase thoroughly, implementing improvements to enhance code quality and maintainability.
 - Fixed deprecated codes, **optimized performance**, and improved project structure, leveraging **Laravel** and **CodeIgniter** knowledge.
 - Conducted comprehensive **testing, including unit tests, integration tests**, and user acceptance tests, to ensure project functionality and stability.
 - Facilitated **hosting and deployment of projects**, configuring necessary environments and ensuring **SSL encryption, domain registration, and cPanel hosting**.
 - Collaborated with hosting providers to ensure a seamless deployment process, utilizing **Laravel** and **CodeIgniter** skills for effective project management.
 - Facilitate the deployment of applications, ensuring seamless installation, configuration, and compatibility with user systems.
-

Role: Software Engineer
Client: Vofox Solutions Pvt Ltd, India
Duration: Dec 2019 – Jan 2021

Skills- Object-oriented programming, API development and integration, Content management system (CMS) development with PHP (e.g., WordPress), Server-side scripting, Database interaction with MySQL,

Responsibilities:

- Managed and configured payment gateway settings, utilizing Laravel and CodeIgniter skills.
- Enhanced functionality by modernizing outdated code bases, utilizing React and **Core PHP**.
- Customized **WordPress**/WooCommerce plugins and implemented additional coding to meet design and functionality specifications.
- Executed comprehensive testing methodologies including writing test plans, debugging, and testing scripts and tools, incorporating React and Core PHP.
- Transformed PSD files into bespoke WordPress themes, integrating React and Core PHP for optimal performance.
- Evaluated proposed technical solutions aligned with client requirements, leveraging React and Core PHP expertise.
- Collaborated with peers to assess software and hardware interfaces, employing React and Core PHP knowledge.
- Implemented **SEO** best practices in website design, utilizing React and Core PHP.
- Optimized web applications for speed, scalability, and security, incorporating React and Core PHP technologies.
- Conducted unit testing of web applications and resolved issues, utilizing React and Core PHP.
- Utilized different APIs to build frameworks, enhancing functionality and integration capabilities.
